Dear Mr. Mullen:

Thank you for the letter of October 14, 1983, in which you propose a sampling plan for the (b) (6) well matter.

We have reviewed the study plan and agree with it. Our next concern is when will the plan be put into play? The sooner the better. In this regard, we are willing to assist you and participate in any way we can. Please advise.

Regarding the ongoing aquifer monitoring program - thank you for agreeing to allow us to repeat the sampling of the target wells in July of 1984. This will be most helpful to our continued monitoring strategy.

Again, thank you for your assistance and continued cooperation.

Sincerely,

ENVIRONMENTAL HEALTH DIVISION
